

Luna Zhu

STRATEGIC FINANCE · AI PRODUCT ECONOMICS · PRICING & MONETIZATION

(+1) 323-610-3358 | luna.x.zhu@gmail.com

SUMMARY

Strategic finance and product economics leader with 11+ years of experience across AI products, cloud infrastructure, and SaaS. At Amazon and AWS, led pricing, monetization, unit economics, margin improvement, and investment initiatives for products with billion-dollar revenue potential. Combines financial rigor with technical fluency to translate customer usage, infrastructure costs, and product tradeoffs into scalable growth strategies.

Core Expertise: AI product economics | Usage-based pricing | Infrastructure cost modeling | Pricing and monetization | Gross-margin optimization | Scenario analysis | SaaS metrics

PROFESSIONAL EXPERIENCE

Amazon Retail

Seattle, WA

Senior Product Manager

02/2025 – Present

- Lead product strategy for Amazon Fashion's next-generation Virtual Try-On platform, shaping a multi-year roadmap expected to influence 25% of apparel GMV and reduce return-driven losses by \$50M annually.
- Designed and executed A/B tests to evaluate VTO engagement, fit-confidence behaviors, and conversion impact; experiments showed a 10% lift in engagement and a 25% improvement in behaviors correlated with conversion.
- Partner with engineering and applied science to define customer trial metrics, technical requirements, and experiments linking AI product engagement to conversion and fit-confidence behaviors.
- Built a unified Voice of Customer view across billion-plus records and structured signals for an internal AI agent, reducing insight retrieval time by 50% and saving 100 team hours per month.

Amazon Web Services (AWS)

Seattle, WA

Finance Strategy Manager | Product Economics & Monetization

06/2021 – 02/2025

- Owned go-to-market (GTM), pricing, and financial strategy for a new AWS observability product projected to generate \$1B+ in revenue over five years; defined roadmap and pricing strategy through competitive research, customer interviews, usage analysis, and price elasticity modeling.
- Led annual planning and forecasting and built product P&Ls and business cases to guide investment decisions; modeled usage-based pricing, customer-level cost to serve, and gross-margin sensitivity to infrastructure consumption.
- Partnered with Engineering and Applied Science to evaluate architecture tradeoffs and compute, storage, indexing, and data transfer costs; improved product margins by 100+ basis points by addressing infrastructure inefficiencies.
- Evaluated pricing experiments, discounts, and contract economics with Finance, Product, Sales, Legal, and Economics partners. Repriced an AWS service generating \$50M in annual revenue, increasing gross margin by 30+ percentage points.
- Led leadership business reviews that delivered \$30M in capital expenditure savings; supported bundling strategy and go-to-market economics for a product suite projected to generate \$600M in revenue over five years.

Internet Brands

Los Angeles, CA

Senior Financial Analyst / Business Partner | SaaS

08/2017 – 05/2021

- Served as product and finance partner for a \$20M ARR SaaS business, leading pricing, segmentation, and performance management across the customer lifecycle.
- Increased ARR by 10% through bundling, upsell, and cross-sell monetization models; improved lead-to-paid conversion by 50% through digital funnel optimization.
- Built Salesforce and Tableau dashboards tracking activation, churn, and revenue KPIs, reducing the reporting cycle from 10 days to 4.

R.R. Donnelley (NYSE: RRD)

Los Angeles, CA

Pricing Analyst

08/2015 – 08/2017

- Built statistical pricing models and scenario simulations to optimize deal profitability; analyzed customer purchasing trends in Oracle Database to inform pricing strategy.
